Summary

Results-driven **Frontend & Flutter Developer** with 4+ years of experience building scalable web and mobile applications. Proficient in **Flutter & Dart** for cross-platform iOS & Android development, and in **React, Next.js, TypeScript** for modern web applications. Experienced in delivering real-world products including a cloud file storage platform (**Bcloud**), a legal case management mobile app, a car marketplace (**Mashin.al** [🔗](#)), and a corporate enterprise website (**InfiniTech.az**). Skilled in state management solutions such as **Provider, BLoC, and Redux Toolkit**, and experienced in integrating RESTful APIs, implementing Firebase Authentication, and optimizing application performance. Committed to writing clean, maintainable code and delivering seamless user experiences across mobile and web platforms.

Experience

Feb 2025 – Present
Baku, Azerbaijan

BestComp Group, *Flutter Developer*

- - Developing web applications using TypeScript, React, Next.js, Redux Toolkit, Dart, Provider, Authentication, REST APIs
- Built Bcloud — a cloud-based file storage and management platform with secure upload, organization, and file transfer features using Flutter, Provider, and REST APIs
- Developed AzDoc Mobile — a cross-platform document management app for iOS & Android using Flutter, integrating backend APIs for real-time document processing and data sync
- Built a Mobile Court Management System — a Flutter application for managing court cases and legal documents, implementing task/case management features with real-time status tracking
- Implemented authentication features (Login, Register) using Provider for state management
- Integrated backend APIs for seamless data exchange between mobile and server

Aug 2024 – Feb 2025
Baku, Azerbaijan

Alventures, *Front End Developer*

- Technology stack: TypeScript, React, NextJS, Redux Toolkit, React Hook Form, Ant Design
- Developed Mashin.al [🔗](#) — an online car marketplace platform, building UI screens and integrating backend APIs for vehicle listings, search, and filtering features
- Built InfiniTech (infinitech.az [🔗](#)) — a corporate website for an Enterprise IT Integration company from scratch, covering services, products, news, and contact sections using Next.js
- Project Backend: PHP
- General: Creation of a new SAAS project using the latest technologies Next.js
- Website for search engine optimization

Jun 2022 – Aug 2024
Baku, Azerbaijan

BestComp Group, *Front End Developer*

- Technology stack: TypeScript, React, Redux-Toolkit, React Hook Form, Lodash, Antd
- Project Backend: PHP, NodeJS

- Optimized React application performance by implementing request distribution logic, reducing average response time
- Refactoring - reducing the complexity of algorithms

Jun 2021 – Jul 2022
Baku, Azerbaijan

SoftEnd LLC, *Front End Developer*

- Technology stack: JavaScript, React, Redux, SCSS
- Worked on fixing bugs, and adding new features
- Reason for leaving: Company suspended

Education

Sep 2024 – Jun 2026
Baku, Azerbaijan

Master's in Process Automation Engineering,
Azerbaijan State Oil and Industry University

Sep 2020 – Jun 2024
Baku, Azerbaijan

Bachelor's in Computer Engineering, *Azerbaijan State Oil and Industry University*

Skills

Front End Development

JavaScript, TypeScript, React.js,
Next.js, HTML, CSS, Tailwind CSS,
